Works with project management tools to execute the content schedule in order to build seasonal and daily updates. Writes HTML, CSS, JavaScript, and integrates 3rd party content for marketing and promotions. Partner with design and strategy teams to deliver personalized content to the users. Partners with translations team to ensure correct verbiage is used in International markets. Coordinates with testing and analytics teams to execute on site tests.

Responsible for implementing visual and interactive elements that users engage with through their web browser when using a web application. Translated the UI/UX design wireframes to actual code that produced visual elements of the application. Worked with the UI/UX designers and bridged the gap between graphical design and technical implementation, taking an active role on both sides and defining how the application looks as well as how it works.

Taught front end development and responsive design curriculum. Tracking attendance and calculating grades. Assists the lead instructor with instructional responsibilities. Tutor and assist students individually or in small groups in order to help them master assignments and to reinforce learning concepts.

Managed content, developed media plans and updated social media, including Facebook and Twitter, with a focus on increasing awareness and engagement. Analyzed and compiled data, and wrote annual reports for stakeholders. Coordinated the development of pitch stories and messaging which culminated in a newsletter, utilizing MailChimp software.
